WEDNESDAY, SEPT. 7, 1904.

Mr. Babcock, chairman of the Republican National Committee, is not at all happy over the outlook for the Republicans in the different congressional districts. He admits the result will be close, which is saying a great deal for Babcock.

The Newberry Observer very truly says that Commissioner of Immigration Watson has earned a great deal more than his salary. The immigration law is going to prove the best thing the South Carolina Legislature has done in many years.

Georgia's new vagrancy law makes it lawful to put to work on the highways any adult who cannot show he has regular employment. As a result of the enforcement of this law the highways of that State are being put in the finest condition. Such a law would be a good one for South Carolina to adopt.

The primary contest last week throughout the State was the most quiet and peaceful and the least interesting that has ever been experienced in South Carolina since the primary was instituted, which speaks well for our people. There were also more votes polled than ever before in the State.

Maj. John H. Earle and Hon. John G. Mobley have to make the second race in the primary next Tuesday for the position of Railroad Commissioner. The upper portion of South Carolina is entitled to this position, and we must have it. If the Democrats of the Piedmont section will do their duty next Tuesday Maj. Earle will be elected.

There will be a great gathering of Democratic editors in the city of New York to-day and to-morrow, who will whip up things for our national standard bearer, Judge Parker. They will be given a grand banquet to-morrow evening. We received an invitation to be present, but as we had not yet gathered our cotton crop and our list of delinquent subscribers being too large, we had to forego that pleasure.

A symposium of the views of bankers of eight heavy cotton States show that they are able to handle a twelve million bale crop of cotton independently of New York, which has heretofore supplied money. There are three thousand and forty banks in the South as compared with fourteen hundred ten years ago. Of the seven hundred million dollars needed only about two hundred million will come from New York.

Webster defines a masher as "one who, or that which mashes; a charmer of women;" but in a western State a distinguished Judge's definition will take the place of all others in new dictionaries: "Any man who accosts on the street a woman whom he does not know and to whom he has no right to speak; any man who stands on the street corners and ogles women as they pass by; any man who makes grimaces at a woman." The masher is really not a charmer of women. He disgusts every woman possessed of ordinary intelligence.

The immigration Bureau, under the energetic and intelligent direction of Commissioner Watson, is just getting started in its good work. Last week we chronicled the sale, through his efforts, of 10,000 acres of land in Lexington County to a colony of Scandinavian truck farmers, who will bring \$130,000 to invest in South Carolina. Last week Commissioner Watson closed a trade with the representative of another colony of Scandinavians who purchased 25,000 acres of land in Aiken County. This last deal represents over \$200,000. These Scandinavians are an intelligent, industrious people, and we would be more than pleased to see several thousand more of them settle in South Carolina.

A table has been prepared and issued by the Department of Commerce and Labor, indicating that, despite the great size of the appropriations, this country is per capita more cheaply maintained than any other in the world with the exception of China and India, and possibly Russia. It costs, according to this, just \$7.74 a year for each man, woman and child in the United States to run the government, as against \$9.30 for Canada, \$9.45 for the German Empire, \$9.54 for Sweden, \$10.09 for Spain, \$11.45 for Portugal, \$11.40 for the Netherlands, \$12.40 for Cuba, \$12.68 for Argentina, \$14.27 for Austria-Hungary, \$17.30 for Paraguay, \$17.40 for Belgium, \$17.84 for France, \$21.30 for the United Kingdom, \$37.69 for Australia and \$38.32 for New Zealand. Russia's per capita expenditure is approximately the same as that of the United States.

In 1890 only seven per cent. of the total population of the United States were church members, whereas to-day the ratio is thirty-six per cent., the members increasing from 364,000 to 29,000,000 observes the Church Economist. Not only has there been this great gain in numbers, but there has also been a great increase in activity, as indicated by the rise of foreign missions, the modern Sunday School, young people's societies, brotherhoods and kindred movements. Investigations show, however, that the large majority of young men, or 9,500,000 out of 14,250,000, are outside of church membership. Even after allowing a large margin for those who are not members but attend religious services, at least occasionally, it is safe to say that fully one-half are wholly outside of church fellowship or direct influence. The Y. M. C. A. is a great organization to lead young men into the church and there should be a live Association in Anderson as well as in every other town throughout the whole country.

Robber Murders Prominent Lady.

Charlottesville, Va., Sept. 4.—Mrs. J. Samuel McCue, wife of an ex-mayor of Charlottesville, was shot and killed at 7:30 o'clock to-night by an unknown man. Mr. and Mrs. McCue had just returned from church. The latter was preparing to retire and her husband started to the bath room. As Mr. McCue entered the hall leading from the bedroom he met face to face a man carrying a bag and a baseball bat. The intruder struck at Mr. McCue but missed him, the latter endeavoring to get back to the bedroom for his shot gun. The unknown man seized McCue, who had gotten his hands on the gun, when he was struck a vicious blow in the face with the bat and knocked unconscious.

Mrs. McCue heard the struggle and rushed to the hallway. The man had secured the weapon and shot her twice, one load entering the left breast close to the heart and the second the left eye. Mrs. McCue managed to reach the bath room and there fell dead. McCue recovered consciousness and with his four young children found his wife dead. An alarm was given at once and the house surrounded but no trace of the murderer has been made up to midnight.

The McCue residence is in the heart of Charlottesville. McCue does not know whether his assailant was white or a negro. Robbery is believed to have been the man's motive. Mrs. McCue was formerly Miss Fannie Crawford, of Augusta County, Virginia, and was a social leader. Public excitement is intense and a lynching is likely if the murderer is caught.

Races Won't Mix at Army Camps.

Gainesville, Va., Sept. 5.—The most bitter feeling exists between the regiments of Southern troops and the colored contingents here for the maneuvers. Standing in a cluster of excited officers, an officer in a Maryland regiment to-day said:

"It's all right as long as they keep the negroes on their own side of the field. I don't see what they wanted to bring them here for, anyway. If the negroes do not amount to much except as a casus belli, they rub them under our noses in the army maneuvers and give them a camp next to ours."

A boyish-looking subaltern belonging to a Georgia regiment was cantering along the road when he met the colored troops under command of a colored officer from Connecticut. It is the custom of subordinates to salute. The colored officer looked at the Georgian fixedly, and the boy cantered on without recognition.

"If I get that colored regiment next to mine," said a Texas officer, "I will tell my men to load with ball cartridges and get back to go at them. We had trouble with them at Fort Riley last year, and it will be the same here if the generals do not look out."

On account of this feeling every military company is being searched for ball cartridges.

Though there have been a number of maneuvers and battles of much importance in the United States in the past, none of these can compare in size or comprehensive events with the mimic warfare which began to-day in Prince William county on the historic battlefield of Bull Run. Regular troops and militia organizations to the number of 30,000 are assembled in the camps in the vicinity of Thoroughfare and Manassas, having come from almost every State in the Union east of the Mississippi river. Great benefit to both regular establishment and the militia organizations is expected to result from the operations. These mimic operations will continue until September 10th, at a cost of \$1,500,000 to the United States government. Unusual interest is manifested in the maneuvers, however, because it was on the same ground that the two battles of Bull Run were fought in the Civil war. It was also on the same ground that the Confederate leader, Jackson, so valiantly held a position near a fence that he was christened "Stonewall" Jackson.

—Elijah Wood, a farmer near Ridge Spring, was given a teaspoonful of carbolic acid in water by his son and died shortly afterwards. The boy gave the dose by mistake, he seeming not to understand the directions of the doctor, who told him to put the acid in water and apply to his father's foot for poison oak.

—Did you ever pause and wonder if a woman in summer is as cool as she looks?

The Baby of 21.

The deepest emotions of the soul may easily be masked by words that, on the surface, seem unfeeling. Pathos may picture itself sometimes in expressions apparently trivial. Under the jingling of the bells the clown's heart may be exceeding sore.

Fathers who have passed through the trial that came to the editor of the Britt (Iowa) Tribune will see the touching meaning that lies between the following lines:

"Twenty-one years ago yesterday a little girl baby was left at our house, red, wrinkled and homely; but mother decided to keep her, because at that time she had only one other girl. The various troubles incident to childhood came—whopping cough, measles, scarlet fever in succession. We fought them off and saved her. But about a year ago a dentist came, and the attack was soon known to be serious. It was a severe case from the first. She had always been a good girl and always seemed to rally from every attack but this one. We suggested all the remedies we could to save her, but she didn't appear to want to be saved. Last night the dentist carried her away to Illinois to introduce her to his people as his wife. They will be back in a few weeks to begin life in a home of their own, but the girl that was a baby 21 years ago, that has been the life and light of our home ever since, has gone. If she makes another home as bright as she has ours, we know a dentist who has won a prize."

A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was completely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success. Many persons in this community are suffering from kidney complaint who could avoid fatal results by using Foley's Kidney Cure. Evans Pharmacy."

—Adam went up against the matrimonial game with his eyes shut—just as other men are doing to-day.

—Few bachelors are capable of holding a girl baby until she gets beyond the age of sixteen.

—When one girl tells another that she is practicing beauty culture the other always asks if she has just begun.

—No modest girl will sit on a man's lap unless she can hide her blushes in the dark.

—A man wins on judgment and loses on luck.

The Woodmen of the World Going to the World's Fair.

The Uniform Rank of the Woodmen of the World with a large party of their friends will go to St. Louis on September 10th, leaving Anderson at 11:17 a. m. going through to St. Louis in their special private coach via Atlanta, Chattanooga and Louisville and arrive St. Louis at 4:30 Sunday afternoon. They will spend five days in the World's Fair and leave St. Louis returning at 10:10 p. m.
